

There are three separate documents (Enhanced Movement, A Rifle Value of 3, and AI Opportunity Fire) and four model PDTs included in this package. All the PDTs – with some modification, if only for the particular Campaign – can be utilized in any of the HPS games. Specifics are as follows:

Enhanced Standard20, Enhanced Standard30

Includes enhanced movement factors for :20 or :30 scenarios. The Weapons Effectiveness table of **Overland5** is utilized with the addition of some weapon types not appearing in Overland.

Enhanced Turn20, Enhanced Turn30

Includes enhanced movement factors for :20 or :30 scenarios. The Weapons Effectiveness table is modified as described in the AI Opportunity Fire document.

Command ranges are per standard and can be modified as one sees fit.
